8 Facts about the birbs

We thought that our viewers probably want to find out a little more about the kurzgesagt birbs. So we conducted a little survey for you.

First of all: Who is kurzgesagt?

We are 60 birbs who mainly work at the kurzgesagt headquarters in Munich and Berlin. Many of us work in either video or product creation and have a background in animation or design. Other birbs specialize in areas such as research and copywriting, production or finance.

01 Favorite Drink?

We do love coffee here at the kurzgesagt headquarters. We wouldn't be able to create our videos without it. In fact we love it so much that we drank over 1,000 liters of it at our Munich office last year.

02 Favorite OS?

Ah yes, the age-old question. Do you prefer Windows or Mac? Since many of us here at kurzgesagt have a background in design, Mac is a strong contender, but almost 60% of the birbs said they prefer working on a Windows computer.

03 Favorite Pasta Shape?

This question has been subject to some very heated debates here at kurzgesagt. So we finally did a little survey and the numbers are in: the favorite pasta shape of kurzgesagt is Spaghetti! Sharing second place are Rigatoni and Tagliatelle, while Fusilli came in third.

04 Favorite Season?

Since the kurzgesagt headquarters are located in Germany, we get to experience four very distinct seasons and everyone has their favorite. The clear winner among the kurzgesagt birbs is fall, the season of pumpkins and spooky things.

05 Cat Person or Dog Person?

While the official mascot of kurzgesagt is a duck, most of us here at kurzgesagt identify as a dog person. We even have an office dog (Mochi) who sometimes makes an appearance in our photos and videos.

06 Favorite kurzgesagt Video?

The votes are in and the favorite video of most birbs here at kurzgesagt is "The Egg". This 2019 video is based on Andy Weir's eponymous short story and takes the viewer on a wild philosophic ride to the afterlife and back. Careful – this video might change your perspective forever.

07 What Languages Do You speak?

While our official company language is English, kurzgesagt is actually a Germany-based company. Naturally, English and German are the most widely spoken languages at the kurzgesagt headquarters. Spanish and French both share the third place and some of the birbs also speak Italian or Turkish.

08 How Much Do You Read?

Every video or product we create here at kurzgesagt is researched meticulously. This is mainly the job of our Editorial Department. They read at least 4,000 papers per year to always stay on top of current scientific findings.

The Evolution of Duck

He has been with us since the very beginning and together we've come so far.
